Callie,
I just wasn't it to go down on record that I'm the 1st person to sign your yearbook. Well we've lasted thru Pat and if they implore the lunches, we may last another three!
Good luck for '68.
Luv ya,
Sue

Well, what can I say?!?
Keep tooting on your clarinet. Hope for better music next year! Good luck

We Dedicate Our Yearbook to . . .

Mr. Donald Benedetti

Any attempt at expressing our thanks for all the help you have given us during the past three years seems inadequate. We shall never forget your devotion to us as class advisor, helping us with the yearbook, the dances, the concessions, and every other problem that cropped up.

We, the Class of 1967, dedicate our yearbook to you, Mr. Benedetti, in return for your friendship, enthusiasm, and genuine interest in us.

Advisors end up with the whole thing anyway.

"Ask not what your class can do for you, but what you can do for your class."

"I'm telling you for the last time imperialism was not justified."

"I pledge allegiance to the pine tree . . ."

"Just remember, make the will printable."

IN THE MORNING . . .

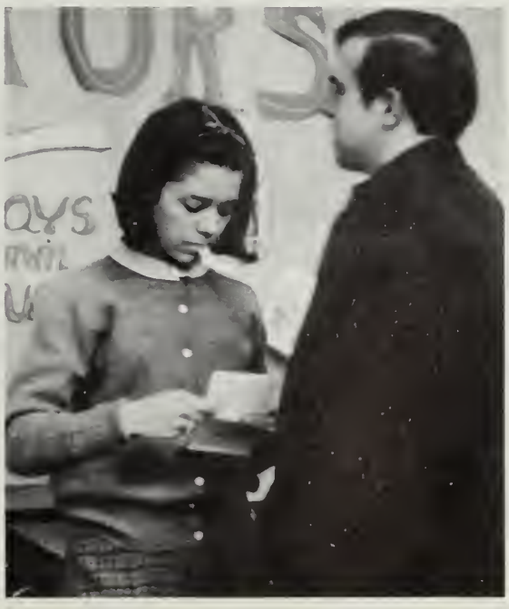
Time Tunnel

"Well, maybe it's your breath . . ."

"Like I was saying to da guys down in Wal - tam . . ."

"Hello, this is God speaking . . ."

"Noah, I want you to build me an ark . . ."



"I know it's kinda sudden but will you marry me?"

. . .

DURING THE DAY . . .

"They'll never guess what I have in here!"

"We can't put *that* in the yearbook."

"Today we are going to talk about sex."

"Yeah, it was really tough out there on the field today, fans."

"If I finish this, it might even make *Playboy*."

"A draft card, for *me*!!?!"

Excitement always retains audiences

"The moon is full tonight."

LUNCH . . .

They're all running for Gainesburgers

"Betcha two bucks I can get it in your mouth."

There's always room for Jello.

. . .

MORE CLASSES . . .

"Then you pull up on the handlebars and that's called a wheelie."

There is only one teacher who would make us write a thesis on Jumping Jacks and The Single Girl.

"I didn't do it Mr. Barry. I was away skiing."

Look at all the funny Freshmen.

"Dear Mom, I can't believe my Senior Thesis is due tomorrow."

AND FREEDOM AT LAST.

Honor Yourself—Give Your Best—That's Enough From Each.

Mr. Edward C. Barry

In 1971 you may find opportunity just around the corner

If you plan to attend college, Raytheon Company has a variety of exciting challenges waiting for you in 1971 . . . right in your own backyard.

We already know, for example, that four years from now we'll require college graduates with degrees in applied mathematics, physics, engineering, business and marketing. Career positions will be available at many of our 17 New England locations in the fields of data processing, communications, components, appliances, education and administration.

If your interests lie in these areas, we'd like to invite you to plan a post-graduate career with us — close to the cultural, educational and recreational advantages that only New England can offer.

In the meantime, our congratulations for a step in the right direction.

Ask what you can do

—John F. Kennedy

Before you accept that first job . . .

Look over your employer as carefully as he does you

What's the Company like anyway? Would I be proud to work there? Reputation for square dealing with employees? Pleasant surroundings?

Will I be working with others my own age? Are they friendly? Do they socialize after hours?

Will the boss be reasonable? Appreciate good, hard work, but won't explode if I make a mistake?

Will I make a decent week's pay? Have a chance for raises, advancement, more responsibility? How about fringe benefits?

Is the work challenging? I had what it takes to get through high school. Will they give me a chance to use my brains?

Note: Many young men and women in this area can answer "Yes" to these questions. They work for New England Telephone.

Why not talk with our employment interviewer soon . . . before you graduate? Ask your Guidance Counselor to tell you when and where to apply.
